Hey kids!
It is important to stay safe on
the farm so you don't get hurt.
Here are some safety tips to
remember...

TOP TEN FARM SAFETY TIPS

1. Never go into a grain bin, wagon, or truck when grain is being loaded or unloaded. Look at the safety signs to know whether it's safe.
2. Stay out of flowing grain. Within 15 seconds of contact you could become completely covered. If you suspect someone is trapped in grain, CALL 911. Do not go into the grain.
3. Make sure there's a detailed address for your farm, so anyone can inform dispatchers of your location if there's an emergency.
4. Children should never play on or climb heavy objects like tires or gates because they may fall. Children should be kept away from farm hazards.
5. Follow safe and healthy guidelines your parent or guardian have demonstrated.
6. Always use appropriate Personal Protective Equipment when on the farm.
7. Listen to all safety instructions your parent or guardian gives you when on the farm.
8. Keep away from hay bale stacking, and other stacking operations.
9. Be sure to stay away from power lines at least three metres.
10. Watch for farm vehicles on public roads and vehicles that display the Slow Moving Vehicle emblem.
